Designed to save you thousands of dollars in operating cost savings vs gas heaters!

AVAILABLE EXCLUSIVELY FROM:

BLUE ZEBRA

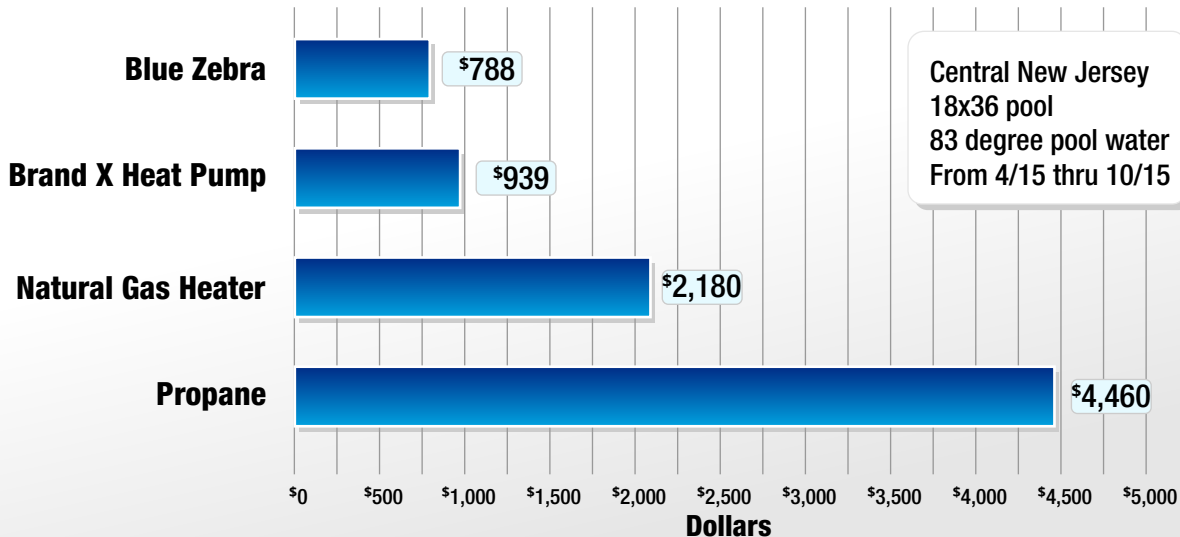

by Aqua Comfort

Saving you Thousands of Dollars

Because Blue Zebra is so inexpensive to operate, pool owners can simply set it and forget it insuring perfect pool water temperature every day, all season long.

Unlike Blue Zebra, gas heaters use an outdated design that is inefficient and forces pool owners to operate them intermittently to reduce the high cost of operation.

Annual Operating Cost Comparison

Exclusive Blue Zebra Advantages

- Superior technology means Blue Zebra operates more than 15% more efficiently than competitive heat pumps
- Titanium heat exchanger with lifetime warranty
- Life expectancy 2 times longer than gas heaters

EXCLUSIVE COOL-CHIL FEATURE

It is estimated that in the hotter mid summer months, as much as 25% of the time your pool water may be too warm to be refreshing and comfortable. The Blue Zebra automatically cools your pool if it gets too warm making it more enjoyable and reducing the chemical usage and cost associated with water that gets too hot.
